Causeway, Harare

20 August 2026

Chief Executive Officer African Brains

Mr. J. Glassey

**OFFICIAL ENDORSEMENT: INNOVATION AFRICA 2027, HARARE, ZIMBABWE:
6 – 8 APRIL 2027**

On behalf of the Ministry of Primary and Secondary Education, I am pleased to confirm our full endorsement and support for **Innovation Africa 2027**, to be hosted in **Harare, Zimbabwe, from 6 – 8 April 2027**. Following full Cabinet approval, this confirms the united commitment of the Government of Zimbabwe to hosting a landmark Pan-African summit focused on education, higher education, ICT innovation, skills development and the future of learning across the continent.

The Ministry of Primary and Secondary Education recognises Innovation Africa as one of the continent's leading platforms for education, ICT innovation and skills development. Hosting Innovation Africa 2027 will demonstrate Zimbabwe's commitment to educational transformation, curriculum reform, teacher development, digital literacy, inclusive learning and the effective use of new technologies to improve education outcomes.

For our Ministry, this is especially important because it aligns closely with Zimbabwe's commitment to strengthening basic education as the foundation of national development. Through the continued implementation of our education reforms, including the Heritage-Based Curriculum, Zimbabwe is working to develop learners with the knowledge, skills, values, creativity and practical competencies required for life, work, citizenship and national progress. The summit will provide a valuable platform to exchange experience on curriculum and assessment reform, foundational learning, digital content, STEM, teacher professional development, inclusive education and school-level innovation.

We are encouraged by the unique meetings-based format and program of scheduled meetings between African government delegations and industry partners forming the basis of the summit. This model ensures that the summit is focused on genuine outcomes, practical engagement and long-term partnerships.

We therefore warmly endorse Innovation Africa 2027 and encourage all participants to join us in the land of **Unity, Freedom and Work**, and to sharing in a landmark moment for education transformation across Africa.
